## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendment and remarks filed January 12, 2009, are noted with appreciation.
2. Claims 19-25 and 27-29 remain pending.

### ***Response to Arguments***

3. The rejections under 35 USC 112, 2<sup>nd</sup> paragraph, set forth in the prior Office action, are withdrawn in view of the amendment.
4. Applicant's arguments filed January 12, 2009, have been fully considered but they are not persuasive. Applicant argues that "The oxide particle size is not only important as far as viscosity flowability and stability of the suspension, but it is crucial for the solidification of the layer." The fact that applicant has recognized another advantage which would flow naturally from following the suggestion of the prior art cannot be the basis for patentability when the differences would otherwise be obvious. See *Ex parte Obiaya*, 227 USPQ 58, 60 (Bd. Pat. App. & Inter. 1985). Particle size may also be important for the solidification of the layer, but that does not change the fact that it a result-effective variable affecting viscosity and flowability. As no evidence of unexpected results demonstrating the criticality of the claimed particle size, the arguments are not persuasive. See MPEP 2144.05.

### ***Claim Rejections - 35 USC § 103***

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Art Unit: 1792

6. Claims 19-21, 23, 24, and 27-29, are rejected under 35 U.S.C. 103(a) as being unpatentable over Schenck et al. (US 6,576,330 B1).

A. These claims remain rejected for the reasons set forth in the prior Office action and as further explained above.

***Allowable Subject Matter***

7. Claims 22 and 25 are allowed.

8. The following is an examiner's statement of reasons for allowance: The reasons for allowance are the same as set forth in the prior Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1792

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
